Welcome to IPC

The **International Poverty Centre** (IPC) is a joint project between the [United Nations Development Programme](#) and the Brazilian Government to promote South-South Cooperation on applied poverty research. It specializes in analyzing poverty and inequality and offering research-based policy recommendations on how to reduce them. IPC is directly linked to the Poverty Group of the Bureau for Development Policy, UNDP and the Institute for Applied Economic Research (Ipea), which does research for the Brazilian Government. The Many Dimensions of Poverty International Conference

"Policy debates have indeed been distorted by overemphasis on income poverty and income inequality, to the neglect of deprivation that relates to other variables, such as unemployment, ill health, lack of education, and social exclusion." A. Sen

"If poverty is to be systematically reduced the orthodoxies of definition, measurement, explanation and resolution, which as key elements of the problems necessarily reinforce each other, have to be re-examined and re-formulated quickly."

Peter Townsend
