Sufficient reason to rejoice

The percentage of poor in Brazil fell by 50.64% between December 2002 and December 2010, during the Lula administration, shows a survey released yesterday by Marcelo Neri of the Getulio Vargas Foundation. Inequality, the researcher has reached the "floor historic" since it began to be calculated in the 60's.

CRIES Tucano, LULA IS THE GUY.

Ilha da Fantasia!..... Esse é o novo Brasil do PT!.... Por que então a dona Dilma cortou 40 Bilhões de Reais do orçamento do Sapo Barbudo para este ano? Por que as obras de infraestrutura dos aeroportos brasileiros, para as olimpíadas e a copa do mundo não decolam? Por que os hospitais brasileiros estão na situação de calamidade pública, como temos assistido pela TV? O PT aprendeu fácil a tática de explorar ao máximo algo que deu certo para encobrir todo o resto que está dando errado!..... O mais importante é continuar enganando o povo, e dando-lhes um dinheirinho no bolsa família para que continuem elegendando esses crápulas.... E por falar em crápula, eis que volta Delúbio Soares!... Viva o Brasil do PT!....

O mais importante de tudo isso é esperar, lutar e trabalhar e não esperar que o outros façam a diferença... o importante é acreditar e se unir para que este índice de pobreza chegue a zero, a fome e a miséria não pode existir em nosso país, infelizmente com os últimos governos que tivemos isso não acabou, foi feita alguma coisa sim, mas se deve fazer muito mais.

...e por outro lado FHC e o PSDB foi o governo da Fome, da Miséria, da pobreza, do FMI, da Dívida Externa, das Privatizações, do Sucateamento das Universidades e Escolas Técnicas, do Afundamento da P-36, da Explosão de Alcântara, que Quebrou o Brasil 3 vezes, do Salário Mínimo de 78 dólares, do Risco Brasil de 2.200 pontos, das Exportações de 60 bi, da Poupança Interna de 0(zero) bi, do Aumento da Renda de apenas 5,6%, da Petrobrax, do serra, tasso, virgilio, alvaro, guerra, flexa, yeda, jarbas, freire, mao santa, heraclito fortes, dem e pps.
